

Good Morning World

The Saturn-Neptune opposition is a place where individual consciousness meets the mass dream. Many souls are drowned in that place; many will yet learn to swim. For everyone who cannot yet identify, claim and exist within their true personhood because "nobody else is doing so," we have the archetype of directly experiencing individuality, self awareness, authority for oneself.

In contrast with most spiritual paths, which seem to teach a kind of narcissism exalting the individual over the collective, Saturn in Leo is saying we need to get hold of this process consciously, and take over as our own boss so everyone else is not doing it to us.

The anesthesia side of Neptune in Aquarius seems to be working beautifully. You just zone out and hope everything is going to be fine.

If nothing else, Saturn in Leo opposing Neptune in Aquarius promises a confrontation or encounter with reality, and as these two planets align exactly, we can expect to see and feel additional evidence of that contact.

AUGUST ENDS with Saturn making an exact opposition to retrograding Neptune on Thursday the 31st. Two days earlier, Mars squares retrograding Pluto. Mercury goes into Virgo on the 27th. On the 26th, Venus conjuncts Saturn at 17° Leo; Mercury conjuncts Saturn on the 21st. On the 19th, Neptune conjuncts retrograding Ceres at 18° Aquarius. Venus ingresses into Leo on the 12th. Mercury enters Leo on the 11th. The full moon is on the 9th at 16° Aquarius which means the sun is at 16° Leo.
